HOUSE OF HOÀNG LONG

Company profile & export catalogue

Hoàng Long develops and supplies loose-leaf teas for importers, distributors and beverage teams. Our family has made tea since 1995, with processing in Tân Lập, Hà Giang.

From the highlands of northern Vietnam

We select and process tea with its intended use in mind. Taste the dry leaf and brewed tea, then test the sample in the drink or retail range you plan to develop.

Family tea-making
Since 1995

Processing and collection
Tân Lập, Hà Giang, Vietnam

Commercial office and warehouse
Sóc Sơn, Hà Nội, Vietnam

Four export selections

Compare a mellow black tea, a smoky black tea, a clean green tea and a flower-scented green tea. Each is available for evaluation as a loose-leaf sample.

Honey-Note Black Tea

Shan black tea with honey and caramel notes and a mellow palate. Its pronounced aroma lends itself to beverage applications as well as black tea ranges.

Smoky Black Tea

Smoke, black-bean and woody notes over a full-flavoured Shan black tea base. A distinctive aromatic selection for smoky black tea ranges and character-led tea portfolios.

Shan Green Tea — Mộc

A refreshing Shan green tea with a smooth palate and no harsh astringency. Mộc is Hoàng Long’s core green tea, supplied loose-leaf for import and distribution.

Magnolia-Scented Green Tea

Green tea scented with dried magnolia flowers, combining a green tea base with magnolia floral aroma. The floral selection in Hoàng Long’s core export range.

Wholesale and export supply

1. ### Send a brief
   Share your destination market, application, volume, preferred packing and target timing.
2. ### Evaluate samples
   Agree on the grade and sensory criteria. Review testing and labelling needs for your destination.
3. ### Confirm a quotation
   Confirm the lot, net weight, documents, delivery basis and timing before placing an order.

Bulk packing
PP/PE sacks of 20, 30 or 35 kg, depending on leaf form and use.

Collection terms
EXW at the Hoàng Long tea factory in Tân Lập, Hà Giang. Terms for each shipment are agreed in the quotation or contract.

Buyer’s checklist

- Destination, sales channel and intended application
- Tea type, target specification and sample reference
- Forecast volume, packing and delivery schedule
- Labelling, testing and shipment documents required for the destination
